

About the Authors

Lawrence J. Lau (Editor) received his B.S. degree in Physics and Economics from Stanford University in 1964, and his M.A. and Ph.D. degrees in Economics from the University of California at Berkeley in 1966 and 1969, respectively. He is the author of *Farmer Education and Farmer Efficiency* with Dean T. Jamison, published by Johns Hopkins University Press, and *Models of Development: A Comparison of Economic Growth in South Korea and Taiwan*, published by the Institute of Contemporary Studies, San Francisco. He is a Fellow of the Econometric Society, a Member of Academia Sinica, Taipei, an Overseas Fellow of Churchill College, Cambridge, England, and an Honorary Member of the Chinese Academy of Social Sciences, Beijing. In 1999 the Hong Kong University of Science and Technology awarded him the honorary degree of Doctor of Social Sciences. He is the Kwoh-Ting Li Professor of Economic Development at Stanford University.

Laurits R. Christensen received his B.A. in economics from Cornell University in 1964. His graduate studies at the University of California, Berkeley, led to an M.A. in statistics in 1966 and a Ph.D. in economics in 1968. He was Professor of Economics at the University of Wisconsin-Madison from 1967 to 1987. He is Chairman of Laurits R. Christensen Associates, an economic research and consulting firm in Madison, Wisconsin.

Erwin R. Diewert received his Honours B.A. in 1963 and his M.A. in 1965, both in mathematics, from the University of British Columbia. He received his Ph.D. in economics from the University of California, Berkeley, in 1969. He is a Fellow of the Econometric Society, a Fellow of the Royal Society of Canada, a Research Associate of the National Bureau of Economic Research, and the Chairman of the Prices Advisory Committee, Statistics Canada. He is Professor of Economics at the University of British Columbia. Denis Lawrence received his Honours B-Ec. from the Australian National University in 1977 and his Ph.D. from the University of British Columbia in 1987, both in economics. He is Director of Tasman Asia Pacific, an economics, management and policy consultancy in Canberra, Australia.

Barbara M. Fraumeni received her B.A. from Wellesley College in 1972 and her Ph.D. in 1980 from Boston College, both in economics. After graduating from Wellesley she served as a Research Assistant for Dale W. Jorgenson and began a collaboration that continues up to the present. She co-authored *Productivity and U.S. Economic Growth*, published by the Harvard University Press in 1987, with Jorgenson and Frank M. Gollop. She was a Professor of Economics at Northeastern University from 1982 through 1998 and a Research Fellow of the Program on Technology and Economic Policy, John F. Kennedy School of Government, Harvard University from 1988 through 1998. She is Chief Economist of the Bureau of Economic Analysis, U.S. Department of Commerce.

Frank M. Gollop received his A.B. degrees in economics in 1969 and philosophy in 1970 from the University of Santa Clara. He was awarded his Ph.D. in economics from Harvard University in 1974. In 1987 he co-authored *Productivity and U.S. Economic Growth* with Jorgenson and Fraumeni-Li. He is Professor of Economics and the Director of Graduate Studies in the Economics Department at Boston College.

Robert E. Hall received his B.A. in economics from the University of California, Berkeley, where Jorgenson was his thesis adviser, in 1964 and his Ph.D. from Massachusetts Institute of Technology in 1967. He is the co-author with Alvin Rabushka of *The Flat Tax*, published by the Hoover Institution in 1995, *Booms and Recessions in a Noisy Economy*, published by the Yale University Press in 1991, and *The Rational Consumer*, published by the MIT Press in 1990. Hall is a Fellow of the American Academy of Arts and Sciences and a Fellow of the Econometric Society. He serves as Director of the Research Program on Economic Fluctuations and Growth of the National Bureau of Economic Research. He is the Robert and Carole McNeil joint Professor of Economics at Stanford University and Senior Fellow at Stanford's Hoover Institution.

Furnio Hayashi received his B.A. from the University of Tokyo in 1975 and his Ph.D. from Harvard University in 1980, both in economics. He is the author of *Understanding Saving: Evidence from the U.S. and Japan*, published by MIT Press in 1997, and *Econometrics*, published by Princeton University Press in 2000. In 1995 he was the first recipient of the Nakahara Prize in Economics, awarded annually by the Japanese Economic Association to the most outstanding Japanese economist under the age of 45. He is a Research Associate of the National Bureau of Economic Research and a Fellow of the Econometric Society. He was Carl Sumner Shoup Professor of the Japanese Economy at Columbia University from 1993-1997 and is Professor of Economics at Tokyo University.

Mun S. Ho received his B.A. in mathematics from Northwestern University in 1983 and his Ph.D. in economics from Harvard University in 1989. He taught at the State University of New York, Buffalo, from 1989-1992. He is affiliated with the University Committee on the Environment, Harvard University, and is a Visiting Scholar at Resources for the Future, Washington, and Research Fellow at the John F. Kennedy School of Government, Harvard University.

Charles R. Hulten received his A.B. in statistics in 1965 and his Ph.D. in economics in 1973 from the University of California, Berkeley. He is the co-editor of *The Legacy of Reaganomics* with Isabel V. Sawhill and editor of

Depreciation, Inflation and the Taxation of Income from Capital, both published by The Urban Institute Press, and editor of *Productivity in Japan and the United States*, published by the University of Chicago Press. He is Research Associate of the National Bureau of Economic Research and Chairman of the Conference on Research in Income and Wealth. He is Professor of Economics at the University of Maryland. Robert M. Schwab received his B.A. from Grinnell College in 1969 and his Ph.D. from Johns Hopkins University in 1980, both in economics. He is Professor of Economics and Director of Graduate Studies at the University of Maryland.

Daniel T. Slesnick received his B.S. in mathematics from the University of Washington in 1978 and his Ph.D. in economics from Harvard University in 1982. He is the author of *Consumption and Social Welfare: Living Standards and their Distribution in the United States*, published by the Cambridge University Press in 2000. He ranked first in applied econometrics publications in the Applied Econometricians' Hall of Fame, published the *Journal of Applied Econometrics*, in 1999. He is the Rex G. Baker, Jr. Professor of Political Economy at the University of Texas at Austin.

Thomas M. Stoker received his B.S. in mathematics from the University of Arizona in 1974 and his A.M. and Ph.D. in economics from Harvard University in 1978 and 1979, respectively. Stoker is a Fellow of the Econometric Society and has served on the editorial boards of many professional journals, including *Econometrica*, the *Journal of Applied Econometrics*, and the *Journal of the American Statistical Association*. He is the Gordon Y. Billard Professor of Applied Economics at the Sloan School of Management, Massachusetts Institute of Technology.

Peter J. Wilcoxon received his B.A. in physics from the University of Colorado in 1982 and his A.M. and Ph.D. in economics from Harvard University in 1985 and 1989, respectively. He is the co-author of *Notes and Problems in Applied General Equilibrium Economics* with Peter B. Dixon, Brian R. Parmenter, and Alan A. Powell, published by North-Holland. He is Associate Professor of Economics at the University of Texas at Austin and a Nonresident Senior Fellow at the Brookings Institution.

Kun-Young Yun received his B.S. in Engineering in 1974 and his M.A. in Public Administration in 1976, both from Seoul National University, and his M.A. in Economics from the State University of New York at Binghamton in 1979. He received his A.M. and his Ph.D. in economics from Harvard University in 1983 and 1984, respectively. He is the co-author of *Tax Reform and the Cost of Capital* with Jorgenson, published by the Oxford University Press in 1991, and co-editor of *Public Finance in Korea* with Kwang Choi, Dong-Kun Kim, and Taewon Kwack, published by the Seoul National University Press in 1992. In 1990 he received the Chung Ram Award, awarded by the Korean Economic Association to the most outstanding Korean economist under the age of 40. He is Professor of Economics in the Department of Economics at Yonsei University, Seoul, Korea.
