List of Figures	ix
List of Tables	xiii
Preface	xvii
<i>Dale W. Jorgenson</i>	
List of Sources	xxix
1 Information Technology and the U.S. Economy	1
<i>Dale W. Jorgenson</i>	
1.1 The Information Age	3
1.2 The Role of Information Technology	12
1.3 The American Growth Resurgence	22
1.4 Economics on Internet Time	39
Notes	40
2 Computers and Growth	43
<i>Dale W. Jorgenson and Kevin J. Stiroh</i>	
2.1 Introduction	43
2.2 Computer Investment	45
2.3 A Model of Computer Services	49
2.4 Computer Stocks and Services	55
2.5 Computers and Growth	61
2.6 Conclusion	67
Notes	68
3 Raising the Speed Limit: U.S. Economic Growth in the Information Age	71
<i>Dale W. Jorgenson and Kevin J. Stiroh</i>	
3.1 Introduction	71
3.2 The Recent U.S. Growth Experience	74
3.3 Setting the Speed Limit	103
3.4 Industry Productivity 110	
3.5 Conclusions	123
Appendix A: Estimating Output	126
Appendix B: Estimating Capital Services	129
Appendix C: Estimating Labor Input	141
Appendix D: Estimating Industry-Level Productivity	144
Appendix E: Extrapolation for 1999	145
Notes	146
4 Why Has the Energy-Output Ratio Fallen in China?	151
<i>Richard F. Garbaccio, Mun S. Ho, and Dale W. Jorgenson</i>	
4.1 Introduction	151
4.2 Review of Previous Work on China's Energy-Output Ratio	152
4.3 Problems with Official Chinese Data	155
4.4 Constructing a Consistent Data Set	158
4.5 A Methodology for Decomposing the Change in Energy Intensity	164
4.6 Decomposition of the Change in China's Energy Intensity	167
4.7 Effects of Using Alternative Estimates of Inflation	173
4.8 Conclusions	175
Notes	176

5 Whatever Happened to Productivity Growth?	179
<i>Dale W. Jorgenson and Eric Yip</i>	
5.1 Introduction	179
5.2 Investment and Productivity	181
5.3 Sources of Growth	187
5.4 Convergence 196	
5.5 Endogenizing Growth	201
Appendix A: Data Sources	206
Notes	209
 6 Tax Reform and the Cost of Capital	 211
<i>Dale W. Jorgenson</i>	
6.1 Introduction	211
6.2 International Comparisons	218
6.3 Alternative Approaches	237
6.4 Summary and Conclusion 243	
Appendix A: King-Fullerton Framework	248
Notes	255
 7 Investment and Growth	 259
<i>Dale W. Jorgenson</i>	
7.1 Introduction	259
7.2 Sources and Uses of Growth	262
7.3 The Growth Revival	266
7.4 Endogenous Growth	270
7.5 Econometric Modeling	277
7.6 Conclusion	281
Notes	285
 8 Policies to Stimulate Economic Growth	 289
<i>Mun S. Ho and Dale W. Jorgenson</i>	
8.1 Introduction	289
8.2 The Education Sector and Human Capital	292
8.3 A Dynamic Model with Human Capital	299
8.4 Data and Parameter Estimates	308
8.5 The Effect of Increased Expenditures on Education	309
8.6 The Effects of Increased Enrollment	312
8.7 Conclusion	317
Notes	318
 9 Did We Lose the War on Poverty?	 321
<i>Dale W. Jorgenson</i>	
9.1 The Official Poverty Line	322
9.2 Measuring the Household Standard of Living	323
9.3 Comparing Standards of Living among Households	325
9.4 Measuring the Household Cost of Living	327
9.5 Estimates of the Poverty Rate	328
9.6 Poverty and Redistributive Policy	330
9.7 From Individual to Social Welfare	332
9.8 Poverty and Inequality within and between Groups	335

9.9 Measuring the Standard of Living	336
9.10 Recommendations and Conclusions	337
Notes	338
10 Indexing Government Programs for Changes in the Cost of Living	339
<i>Dale W. Jorgenson and Daniel T. Slesnick</i>	
10.1 Measuring the Cost of Living	343
10.2 Implementing Cost-of-Living Indexes	346
10.3 Group Cost-of-Living Indexes	352
10.4 Recommendations and Conclusions	359
11 Controlling Carbon Emissions in China	361
<i>Richard F. Garbaccio, Mun S. Ho, and Dale W. Jorgenson</i>	
11.1 Introduction	362
11.2 A Dynamic Economy-Energy-Environment Model for China	364
11.3 Data and Exogenous Variables	368
11.4 Carbon Taxes and Emissions	370
11.5 Conclusions	380
Appendix A: Description of the Model	382
Notes	390
12 The Economic Impact of Fundamental Tax Reform	393
<i>Dale W. Jorgenson and Peter J. Wilcoxon</i>	
12.1 Introduction	393
12.2 Provisions of U.S. Tax Law	401
12.3 Fundamental Tax Reform	403
12.4 Conclusion	419
Notes	420
References	421
Index	455
